DO YOU KNOW HOW TO TURN DIFFERENCES INTO EFFECTIVE DYNAMICS AND COMMERCIAL SUCCESS?

EASI makes it easy to understand what drives your people and creates balanced, well-functioning and high-performing teams and nurture leadership.

DIVERSITY IS FINALLY A REAL BUSINESS ADVANTAGE

Most employees interact with and rely on colleagues either in team collaborations, digital networks or other set-ups across geographical and cultural borders. This makes the task of ensuring optimal working conditions more than difficult for line managers and HR professionals. If you have ever tried to align expectations and define "success" with people that have no common language to express what makes them excited, thrilled or stressed, you know what we are talking about.

Personality testing and evaluation with EASI is the logical move for organisations that want to build decisions on the objective strength of data. 64 + 64 questions and a unique algorithm create a better understanding of employee communication, work relational challenges, personality-behaviour correlation, change management issues and much, much more. Realizing what factors count as e.g. motivating, valuable or stressful – on individual as well as on team level – is a big step forward for most managers with people responsibilities.

HOW DO YOU MOTIVATE YOUR SUPPORTERS, ENTHUSIASTS, ANALYSTS AND IMPLEMENTERS?

Don't know how to answer that question? Try EASI. This typology test reveals what psychological traits make your employees and teams tick. Some are Enthusiasts and Implementers, who love to come up with new solutions and execute them. Others are Supporters or Analysts, who thrive when they can focus their energy on helping others or get to the bottom of their own tasks.

There is no right or wrong. But there are right or wrong ways to approach, engage, lead and treat employees. EASI gives you and your teams the words to talk about people-related situations at work. This results in new agreements and smart ways to ensure efficient usage of both potential and resources.
